

# TRICHOTOMY

## FACT FINDING MISSION

SEAN FORAN (PIANO)  
JOHN PARKER (DRUMS)  
PAT MACHISELLA (ACOUSTIC BASS)

**TRICHOTOMY** (formerly known as Misinterprotato\*) signify their step toward the future with a provoking new album, **FACT FINDING MISSION**.

This new album of original music is brimming with a sense of vitality and adventure. Musically assured with bold music vision, it places the Trio at the forefront of modern creative jazz. Influences are varied, from John Zorn to Tord Gustavsen, but most clearly the trio sound like themselves; inventive, exciting and with spirited group creativity.

By highlighting energetic melodies, flowing bass lines and finely textured rhythmic layers **FACT FINDING MISSION** reveals it is an album that is captivating and accessible.

The Trio also welcome here the contribution of the talented James Muller (Guitar), Tunji Beier (Percussion) and Linsey Pollak (Reeds) who incorporate elements from European and Indian folk traditions on 4 of the 9 tracks.

Tracking live to tape and recording over 120 minutes of material for the album, results in a selection of the most absorbing material created by the Trio.

Available on CD & Limited Edition 180 gram Vinyl (includes a high def download).

**FACT FINDING MISSION** is an album of modern, improvised music that celebrates their diverse Trio sound.
